ENHANCEMENTS

Rejuvenating Swarm ENHANCEMENT
Attacks targeting this unit suffer -1 to their Wound rolls if their Strength exceeds this unit's Toughness.

ABILITIES

Extraction of Fresh Disease BIOLOGUS PUTRIFIER
The first time an enemy unit is destroyed by this model's unit with a melee attack, add 6 to this model's Objective Control characteristic for the rest of the battle.

Foul Infusion BIOLOGUS PUTRIFIER
While this model leads a unit, that unit's weapons have the [Lethal Hits] ability. Additionally, each time a model in that unit makes an attack, an unmodified Hit roll of 5+ scores a Critical Hit instead of only a 6.

Gift of Contagion (Psychic) MALIGNANT PLAGUECASTER
While this model leads a unit, whenever a model in that unit makes an attack that targets a unit which is Afflicted, that attack has [Sustained Hits 1].

Pestilent Fallout (Psychic) MALIGNANT PLAGUECASTER
Once this model's shooting in your Shooting phase is done, pick one enemy Infantry unit that one or more of its Plague Wind attacks hit: that unit is enfeebled until the end of your opponent's next turn; an enfeebled unit's models have 2" subtracted from their Move characteristic.

Rejuvenating Swarm ENHANCEMENT · MALIGNANT PLAGUECASTER

Infused with the Blessings of Nurgle PLAGUE MARINES
In your Shooting phase, each time this unit shoots, once it is done, pick one enemy unit that one or more of its shots hit: that unit is Afflicted until the start of your next turn.

Nurgle's Gift (Aura) ARMY RULE

Hypervirulent Strains DETACHMENT
The Contagion Range of friendly DEATH GUARD CHARACTER units is 3" longer (12" at most).

Leader BIOLOGUS PUTRIFIER
It may lead any of those units even if one other Leader unit is already attached to it (never more than one of the same Leader per unit). Should that Bodyguard unit then be destroyed, the Leader units that were attached to it each go back to being separate units, with their original Starting Strengths.

Deadly Demise 1 BIOLOGUS PUTRIFIER
Roll one D6 if this model is destroyed, before it leaves play: a 6 deals 1 mortal wound to every unit within 6".

ABILITIES

Virulent Aura LORD OF VIRULENCE
While this model leads a unit, you can re-roll the Wound roll for each ranged attack made by a model in that unit.

Blight Bombardment LORD OF VIRULENCE
At the start of your Shooting phase, pick one enemy unit that is visible to this model and within 30" of it. Until the end of the phase, each time a friendly Death Guard unit makes a ranged attack targeting that unit, re-roll a Hit roll of 1 (or, if that attack is made with a Blast weapon, you can re-roll the Hit roll instead).

Deep Strike LORD OF VIRULENCE + DEATHSHROUD TERMINATORS
You may hold this unit in Reserves rather than deploying it on the battlefield; when it arrives, it is set up wherever you like, provided every enemy model is more than 8" away horizontally.

Silent Bodyguard DEATHSHROUD TERMINATORS
While a Character model leads this unit, that Character model has the Feel No Pain 4+ ability.

Death Approaches DEATHSHROUD TERMINATORS
When this unit arrives by Deep Strike in your Movement phase, it can be set up anywhere that is more than 6" horizontally from every Afflicted enemy unit and more than 8" horizontally from any other enemy unit.

ABILITIES

The Destroyer Hive TYPHUS
While this model leads a unit, subtract 1 from the Hit roll of each melee attack that targets that unit.

Eater Plague (Psychic) TYPHUS
In your Shooting phase, you can pick one enemy unit that is visible to this Psyker and within 18" of it (excluding units with the Lone Operative ability that are not part of an Attached unit and are not within 12" of this Psyker), then roll one D6: a 1 means this Psyker's unit suffers D3 mortal wounds; a 2-5 means that enemy unit suffers D6 mortal wounds; a 6 means it suffers D3+3 mortal wounds.

Deep Strike TYPHUS
You may hold this unit in Reserves rather than deploying it on the battlefield; when it arrives, it is set up wherever you like, provided every enemy model is more than 8" away horizontally.

Curse of the Walking Pox POXWALKERS
Each time an attack made by a Poxwalker model in this unit destroys an enemy model (excluding Monster and Vehicle models), one destroyed Poxwalker model can be returned to this unit once this unit's attacks are resolved.

While Typhus is leading this unit, the enemy models destroyed by Typhus' Eater Plague ability count, for this ability, as destroyed by an attack from a Poxwalker model in this unit.

Infiltrators POXWALKERS
When every model in this unit has this ability, it can be set up during deployment wherever it is more than 8" horizontally away from your opponent's deployment zone and from all enemy units.

Feel No Pain 5+ POXWALKERS
Each time this model is about to lose a wound, a roll of 5+ on one D6 means it keeps that wound.

DEATH GUARD

RULES AND STRATAGEMS

Nurgle's Gift (Aura) ARMY RULE
If DEATH GUARD is your Army Faction, an enemy unit is Afflicted while it's within Contagion Range of any of your DEATH GUARD models.

Contagion Range ARMY RULE
As the battle goes on, the Contagion Range grows:

- Battle round 1: 3"
- Battle round 2: 6"
- Battle round 3 onwards: 9"

Modifiers can never take the Contagion Range above 12".

Afflicted ARMY RULE
In the Declare Battle Formations step, pick one of the Plagues below for the whole battle. Models in an Afflicted enemy unit have 1 less Toughness, and the unit is subject to the Plague you picked.

SKULLSQUIRM BLIGHT: Enemy units have the Benefit of Cover against the ranged attacks of models in this unit, and the melee attacks of models in this unit subtract 1 from their Hit rolls.

RATTLEJOINT AGUE: The Save characteristic of models in this unit is worsened by 1.

SCABROUS SOULROT: Models in this unit have their Move, Leadership and Objective Control characteristics worsened by 1 (this rule cannot take Objective Control below 1).

Pact of Decay ARMY RULE
When mustering your army, PLAGUE LEGIONS can't be chosen as your Army Faction unless a rule specifically allows it.

Warped And Rusted Animus CONTAGION ENGINES

- Friendly FOETID BLOAT-DRONE/FOETID BLOAT-DRONE WITH HEAVY BLIGHT LAUNCHER/HELBRUTE/MYPHITIC BLIGHT-HAULER units have CONTAGION ENGINE.
