Game sequence

11th Edition

Pre-game

- 1. Muster armies: choose Force Disposition (this list: Purge the Foe OR Priority Assets, pick one)
- 2. Determine mission (from both players' dispositions)
- 3. Determine deployment map
- 4. (Optional) Twist
- 5. Create the battlefield
- 6. Deploy and finish pre-game, in your mission pack's order:
- ↳ Declare Deep Strike reserves: any Cthonian Beserks units (Fury from the Dêlve)
- ↳ Embark the Hekaton (14 slots; Exoarmour and Steeljacks take 2 each)
- ↳ Hernkyn Yaegirs: Infiltrate (>8" from enemy deployment zone and enemy units)
- ↳ Start of battle: Hostile Acquisition, 0 YP

Each turn

- 1. Start of turn step
- 2. Command: +1 CP each → start-of-phase → Battle-shock → END: earn YP → Memnyr gain/spend → (your turn) 7+ YP = Fortify Takeover, else Hostile Acquisition
- 3. Movement: Augmented Assault → move → reinforcements (Beserks Deep Strike, Dêlvewerke Navigator)
- 4. Shooting (cover = -1 BS)
- 5. Charge (chargers get Fights First until end of turn)
- 6. Fight: Fights First combats, then the rest, alternating
- 7. End of turn: non-mission rules, then mission scoring

Planning rules

- One stratagem per unit per phase
- YP are earned at the end of BOTH players' Command phases; your state is only checked at the end of yours
- Deep Strike: >8" from enemies. Rapid Ingress: not in battle round 1
- Ingress: wholly within 6" of an edge, >8" from enemies; not in enemy deployment zone before round 3

Steps from the 11th Edition core rules; follow your mission pack where noted.

Game plan

Purge the Foe or Priority Assets (recommended: Purge the Foe)

Shoot from the Hekaton and Hearthguard, drop three Beserk blocks on whatever's left, and feed YP from objectives into the stratagems that make each hit land.

Which disposition?

- Recommended: Purge the Foe. Three Deep Strike Beserks units, Hearthguard plasma and the Hekaton are built to kill, and Kâhl earns YP for each unit his squad destroys.
- Priority Assets fits the YP engine too: Hearthkyn sticky objectives (Luck Has), Memnyr's YP per objective held, and Fortify Takeover's -1 to wound when you sit on points.
- Pick Priority Assets instead if you expect a tough opponent you can't out-kill, and lean on holding points and Fortify Takeover.

Deployment

- Hearthkyn Warriors (OC 20 each) on home objectives: home objectives earn YP every Command phase, and Luck Has keeps them yours if you leave.
- Memnyr + Steeljacks (13 slots) in the Hekaton, or near a midfield objective: Computational Mastermind gives YP for each objective he holds.
- Kâhl + Hearthguard (21 slots) won't fit in the Hekaton. Deploy them within 9" lines of approach for Avatars of the Ancestors.
- Beserks units in Deep Strike; Berehk's unit is the big hit. Kâhl (Dêlvewerke Navigator) should see where they land.
- Yaegirs Infiltrate forward to screen; Pragmatic Hunters lets them step away when enemies close in.
- Buri alone on a flank: Lone Operative and Stealth keep him safe from long-range fire.

Scoring

- Purge the Foe (destroying units): Kâhl gains 1YP each time his unit kills a unit. Hostile Acquisition's +1 to hit vs units on objectives fits this plan.
- Priority Assets (holding high-value points) leans on Hearthkyn, Memnyr and Fortify Takeover instead. See Matchups.
- From round 2, holding 1 and then 2 objectives outside your zone gives +1 YP each, and +1 more if your opponent holds fewer.
- Fortify Takeover (7+ YP) is the defensive state. Spending below 7 on Cyberstimm Infusion or Fury of the Hearth for a big kill is usually worth it in Purge the Foe.
- Hidden Accessways (end of opponent's Fight) lifts a Beserks/Hearthkyn/Yaegirs unit out to re-drop on a new objective.

> Mission names from the disposition matrix; exact scoring is on your mission card. Share it for tailored tips.

Matchups

Your mission vs theirs

If you pick Purge the Foe

Opponent picks	You play	They play	Watch for
Take and Hold	Unstoppable Force	Immovable Object	They'll stack objectives: Hostile Acquisition gives +1 to hit vs units on objectives; drop Beserks on their holders.
Purge the Foe	Meatgrinder	Meatgrinder	Mirror: kill race. Beserks' FNP 4+ and Cyberstimms trade well; keep Memnyr and Buri out of sight.
Disruption	Punishment	Delaying Action	They'll work in your zone: Luck Has keeps Hearthkyn objectives (and their YP) even after they move off.
Reconnaissance	Consecrate	Triangulation	They'll spread thin: Yaegirs and Buri hunt lone scouts; Hekaton's 36" bolt cannons cover lanes.
Priority Assets	Destroyer's Wrath	Vital Link	They'll commit to key points: Steeljacks' Preymark Crest gives Precision vs units on objectives; Beserks follow up.

If you pick Priority Assets

Opponent picks	You play	They play	Watch for
Take and Hold	Secure Asset	Inescapable Dominion	They'll stack objectives: Hostile Acquisition gives +1 to hit vs units on objectives; drop Beserks on their holders.
Purge the Foe	Vital Link	Destroyer's Wrath	They want kills: Yaegirs and Hearthkyn are cheap kills; screen them, and Hidden Accessways pulls one out.
Disruption	Extract Relic	Locate and Deny	They'll work in your zone: Luck Has keeps Hearthkyn objectives (and their YP) even after they move off.
Reconnaissance	Vanguard Operation	Search and Scour	They'll spread thin: Yaegirs and Buri hunt lone scouts; Hekaton's 36" bolt cannons cover lanes.
Priority Assets	Sabotage	Sabotage	Mirror: racing for the same assets. Augmented Assault (spend YP) gets Beserks there first.

Each player plays the mission from their own disposition's row. Mission names from the 11th Edition disposition matrix; scoring is on the mission card.

2000 Mosquitos — Turn Cheat Sheet

Dêlve Assault Shift + Hearthguard Covenant · 1995/2000 pts · Purge the Foe or Priority Assets

Don't forget

Start of battle: Hostile Acquisition, 0 YP. Beserks in Deep Strike

End of EACH player's Command phase: Earn YP: 1 for a home objective; from round 2, +1 for 1 outside, +1 for 2 outside, +1 if opponent holds fewer

End of your Command phase: Memnyr: gain or spend 1 YP for each objective he holds · Hearthkyn: objective they're on becomes sticky (Luck Has) · Check state: 7+ YP = Fortify Takeover, otherwise Hostile Acquisition

Your Movement phase: Augmented Assault: spend up to 2 YP on Beserks (+Move, charge after Advance) · Reinforcements: Dêlvewerke Navigator spends YP to bring Beserks models back

Shooting and Fight: Fury of the Hearth (Hearthguard: +1 S, 1 YP for Sustained Hits 1) · Cyberstimm Infusion (Beserks: re-roll wounds, 2 YP for full re-rolls) · Kâhl's unit kills a unit: +1 YP (once per phase)

Opponent's turn: Yaegirs: D6" move when an enemy ends a move within 8" · Buri: D6+2" surge after being wounded by shooting · Weavewërke Buttress (Hostile only) / Brëkkeknots (Hearthguard 4+ invulnerable) · Overwatch with Steeljacks (hit on 5+, 4+ in Fortify)

Before the battle

- Cthonian Beserks units (all three) — may start in Deep Strike reserves
- Hernkyn Yaegirs — Infiltrators: deploy >8" from enemy deployment zone and enemy units
- Army — starts with Hostile Acquisition and 0 YP

Command phase

- Army — END of each player's Command phase: earn YP from objectives (see Reminders)
- Memnyr Strategist — end of YOUR Command, before the state check: gain or spend 1 YP per objective he holds
- Hearthkyn Warriors — end of your Command: an objective they hold stays yours until the opponent out-controls it at a phase end
- Army — end of your Command: 7+ YP = Fortify Takeover (+1 hit on your controlled objective; -1 to wound vs your non-vehicle units when S beats T), else Hostile Acquisition (+1 hit vs units on objectives; re-roll Advance and Charge)
- Strat: Insane Bravery (1CP) — auto-pass a Battle-shock test (once per battle)

Movement phase

- Strat: Augmented Assault (1CP) — a Beserks unit not yet moved: spend up to 2 YP for +1" Move each, and it can charge after Advancing
- Reinforcements — Beserks Deep Strike >8" from enemies
- Kâhl — Dêlvewerke Navigator (reinforcements step): spend YP to return destroyed models to a Beserks unit he can see
- Memnyr — Multiwave System Jammer (once per battle): treat the round as one higher when a Cthonian unit arrives from Reserves

Shooting phase

- Hearthguard — re-roll hit 1s vs the closest target; Avatars: re-roll wound 1s vs targets within 9"
- Strat: Fury of the Hearth (1CP) — Hearthguard +1 S on ranged attacks; spend 1 YP for Sustained Hits 1
- Hekaton — ignores all BS and hit roll modifiers (Damaged, cover) if you want; re-roll hit 1s; Conversion beamer crits on 4+ vs targets beyond 12"
- Hearthkyn Warriors — re-roll hit 1s
- Strat: Explosives (1CP) — Hearthkyn or Yaegirs (Grenades): six D6 vs enemy within 8", each 4+ = 1 MW

Charge phase

- Hostile Acquisition — re-roll Charge rolls
- Strat: Crushing Impact (1CP) — Hekaton after a charge: roll 12 D6, 5+ = MW to enemy (max 6), 1s hurt you

Fight phase

- Strat: Cyberstimm Infusion (1CP) — a Beserks unit re-rolls wound 1s; spend 2 YP to re-roll any wound roll
- Strat: Unstoppable Force (1CP) — a Votann unit Piles In / Consolidates 6" instead of 3"
- Beserks — Cyberstimms: a model killed before it fights stays to fight on 4+ (3+ in Fortify Takeover)
- Kâhl — when his unit destroys an enemy unit: +1 YP (once per phase, any phase)
- Strat: Epic Challenge (1CP) — a Character's melee gets Precision

Opponent's turn (reactive)

- Yaegirs — Pragmatic Hunters: enemy ends a move within 8" → Yaegirs make a D6" Normal move (not if engaged)
- Strat: Fire Overwatch (1CP) — end of their Movement; Steeljacks hit on 5+ (4+ in Fortify); Memnyr makes it 1CP cheaper once per round
- Strat: Rapid Ingress (1CP) — end of their Movement, not round 1
- Buri — Unhinged Vengeance: after an enemy unit shoots and wounds him, surge up to D6+2"
- Strat: Weavewërke Buttress (1CP) — Hostile Acquisition only: an infantry unit being shot gets -1 to wound vs it
- Strat: Brëkkeknots (1CP) — Hearthguard targeted (shooting or either Fight): 4+ invulnerable save
- Strat: Heroic Intervention — Berehk's unit costs 1CP less and ignores other uses that phase
- Strat: Counter-offensive (2CP) — their Fight phase: your unit fights next
- Strat: Hidden Accessways (1CP) — end of their Fight: unengaged Beserks/Hearthkyn/Yaegirs go to Strategic Reserves

Always on

- Beserks + Berehk — FNP 4+; Hearthkyn — FNP 6+ and 5+ invulnerable (Weavefield Crest)
- Hearthguard — 5+ invulnerable (Rampart Crest and Weavefield Crest; they don't stack)
- Buri — Lone Operative (only shot from within 12"), Stealth; first death: 2+ to come back at full wounds
- Steeljacks — on objectives, critical wounds have Precision (Preymark Crest)
- One stratagem per unit per phase

Buri Aegnirssen

85 pts

Solo character assassin who comes back after dying once.

Model	M	T	Sv	Inv	W	Ld	OC	Other
Buri Aegnirssen	5"	6	3+	4+	5	6+	1	

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Autoch-Pattern Bolt Pistol	12"	1	2+	4	0	1	Pistol	Chaff
Bane - Strike	Melee	5	2+	12	-3	3	Precision	Characters, elites, vehicles
Bane - Sweep	Melee	10	2+	6	-2	1		Infantry

ALWAYS Lone Operative: only shot from within 12" (unless attached); Stealth: always has cover vs shooting
ONCE Grudge-fuelled Fortitude: first death, roll at end of phase; 2+ = back at full wounds nearby
REACT Unhinged Vengeance: in opponent's Shooting, after a unit wounds him, surge up to D6+2"

Don't forget: The surge can pull him toward an enemy for your next charge. It only happens if the shooting actually wounded him.

Infantry · Epic Hero · Character · Lone Operative · Stealth

Berehk Stornbröw + Cthonian Beserks

265 pts

Deep Strike melee hammer; kills tanks, monsters and elites.

Model	M	T	Sv	Inv	W	Ld	OC	Other
Berehk Stornbröw	6"	6	5+	5+	5	7+	1	FNP 4+
10× Beserk	6"	6	5+	—	1	7+	1	FNP 4+

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Kromlôk's Revenge - Graviton Strikes (Berehk)	Melee	4	2+	10	-2	4	Anti-Monster 3+, Anti-Vehicle 3+, Sustained Hits 1	Vehicles, monsters
Kromlôk's Revenge - Plasma Sweeps (Berehk)	Melee	8	2+	7	-2	2	Sustained Hits 1	Elite infantry
Warforge Gauntlets (Berehk)	Melee	2	2+	6	-2	1	Extra Attacks, Sustained Hits 1	Infantry
Heavy Plasma Axe ×8	Melee	3	4+	7	-2	3	Sustained Hits 1	Elite infantry
Twin Concussion Gauntlets ×2	Melee	4	4+	9	-2	2	Twin-Linked, Sustained Hits 1	Vehicles, elites

ALWAYS Break the Foe: all melee weapons have Sustained Hits 1 (already shown on the weapons)
ALWAYS FNP 4+ on every model; Berehk has a 5+ invulnerable save
FIGHT Cyberstimms: a Beserk killed before fighting stays to fight on 4+ (3+ in Fortify)
REACT Relentless Avalanche: Heroic Intervention costs 1 less CP and ignores other uses this phase
BEFORE Deep Strike (Fury from the Dêlve): arrive >8" from enemies

Don't forget: With Hostile Acquisition active, re-roll the charge after Deep Striking.

Check: Subterranean Explosives needs a mole grenade launcher; nothing in this unit carries one, so it's probably inactive. Fury from the Dêlve gives Deep Strike to 'Cthonian Beserks units'; check that it covers Berehk when he's attached.

Infantry · Battleline (detachment) · Epic Hero · Leader: Berehk → Cthonian Beserks

Kâhl + Einhyr Hearthguard

360 pts

Elite shooting block that earns YP from kills; plasma at 24", best within 9".

Model	M	T	Sv	Inv	W	Ld	OC	Other
Kâhl	5"	5	3+	4+	4	7+	1	
10× Einhyr Hearthguard	5"	5	2+	5+	2	7+	1	

Weapon	Rng	A	BS/ WS	S	AP	D	Keywords	Good vs
Volkanite Disintegrator (Kâhl)	24"	3	2+	5	0	1	Devastating Wounds, Lethal Hits	Infantry
Mass Gauntlet (Kâhl)	Melee	3	3+	8	-3	3	Lethal Hits	Elites, vehicles
EtaCarn Plasma Gun ×10	24"	1	3+	7	-3	2	Rapid Fire 1, Lethal Hits	Elite infantry
Exoarmour Grenade Launcher ×10	24"	D3	3+	3	0	1	Blast, Lethal Hits	Light infantry
Concussion Gauntlet ×9	Melee	2	3+	8	-2	2	Lethal Hits	Elites, vehicles
Graviton Hammer	Melee	3	4+	9	-1	3	Anti-Monster 3+, Anti-Vehicle 3+, Lethal Hits	Vehicles, monsters

ALWAYS Kindred Hero: all the unit's weapons have Lethal Hits (Kâhl leading)
SHOOT Decisive Destruction: re-roll hit 1s vs the closest eligible target
SHOOT Avatars of the Ancestors: re-roll wound 1s vs targets within 9"
ONCE Seized Opportunity: once per phase, when the unit destroys an enemy unit, +1 YP
MOVE Dêlvewerke Navigator: reinforcements step, spend YP to return models to a Beserks unit Kâhl can see
ALWAYS 5+ invulnerable (Rampart Crest / Weavefield Crest, same save)

Don't forget: Shoot the closest target when you can. Fury of the Hearth +1 S makes EtaCarn plasma S8.

Check: Materialisation Matrices needs a Hearthguard unit with Deep Strike, and this one doesn't have it, so it's probably inactive. Too big for the Hekaton (10 Exoarmour = 20 slots). Dêlvewerke Navigator's YP cost is unclear; check the wording.

Infantry · Exoarmour · Character (Kâhl) · Leader: Kâhl → Einhyr Hearthguard

Memnyr Strategist + Ironkin Steeljacks with Heavy Volkanite Disintegrators

225 pts

Mid-range firebase and YP engine on an objective; strong Overwatch.

Model	M	T	Sv	Inv	W	Ld	OC	Other
Memnyr Strategist	5"	5	4+	—	4	7+	1	
6× Ironkin Steeljacks with Heavy Volkanite Disintegrators	5"	6	2+	—	3	7+	1	

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Autoch-Pattern Bolt Pistol (Memnyr)	12"	1	4+	4	0	1	Pistol	Chaff
Close Combat Weapon (Memnyr)	Melee	1	4+	3	0	1		Chaff
Heavy Volkanite Disintegrator ×6	24"	6	4+	6	-1	1	Devastating Wounds	Infantry, elites
Plasma Knife ×6	Melee	2	3+	6	-2	1		Infantry

CMD Computational Mastermind: end of your Command, gain or spend 1 YP for each objective he holds (before the state check)
REACT Purge Response: Fire Overwatch hits on 5+ (4+ in Fortify Takeover)
REACT Predictive Guidance: once per round, Overwatch or Heroic Intervention on this unit costs 1 less CP
ONCE Multiwave System Jammer: once per battle, treat the round as one higher for a Cthonian unit arriving from Reserves
ALWAYS Preymark Crest: vs units on objectives, critical wounds gain Precision

Don't forget: Gain vs spend happens before the 7 YP check. Gain to push into Fortify, or spend to stay in Hostile.

Check: Multiwave Jammer only matters if a round-based Reserves rule applies (e.g. no enemy deployment zone before round 3). Check what it unlocks for you.

Infantry · Character (Memnyr) · Fits in the Hekaton (13 slots)

Cthonian Beserks

180 pts

Deep Strike melee unit with plasma axes for elite infantry.

Model	M	T	Sv	Inv	W	Ld	OC	Other
10× Beserk	6"	6	5+	—	1	7+	1	FNP 4+

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Heavy Plasma Axe ×8	Melee	3	4+	7	-2	3		Elite infantry
Twin Concussion Gauntlets ×2	Melee	4	4+	9	-2	2	Twin-Linked	Vehicles, elites

ALWAYS FNP 4+
FIGHT Cyberstimms: a model killed before fighting stays to fight on 4+ (3+ in Fortify)
BEFORE Deep Strike (Fury from the Dêlve); Battleline

Don't forget: No Sustained Hits here, only Berehk's unit has it. Use Cyberstimm Infusion for wound re-rolls.

Check: Subterranean Explosives needs a mole grenade launcher, which isn't in this unit's wargear, so it's probably inactive.

Infantry · Battleline (detachment) · Deep Strike

Cthonian Beserks ×2

180 pts

Deep Strike anti-tank melee: mauls are Anti-Vehicle/Monster 3+. Two units, 180 pts each.

Model	M	T	Sv	Inv	W	Ld	OC	Other
10× Beserk	6"	6	5+	—	1	7+	1	FNP 4+

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Concussion Maul ×8	Melee	3	4+	5	-2	3	Anti-Monster 3+, Anti-Vehicle 3+	Vehicles, monsters
Twin Concussion Gauntlets ×2	Melee	4	4+	9	-2	2	Twin-Linked	Vehicles, elites

ALWAYS FNP 4+
FIGHT Cyberstimms: a model killed before fighting stays to fight on 4+ (3+ in Fortify)
BEFORE Deep Strike (Fury from the Dêlve); Battleline

Don't forget: Point these at vehicles and monsters: wound rolls of 3+ are critical and wound automatically.

Check: Subterranean Explosives needs a mole grenade launcher, which isn't in this unit's wargear, so it's probably inactive.

Infantry · Battleline (detachment) · Deep Strike · 180 pts each

Hearthkyn Warriors ×2

90 pts

Home objective holders (OC 20 each) and YP earners. Two units, 90 pts each.

Model	M	T	Sv	Inv	W	Ld	OC	Other
10× Hearthkyn Warriors	5"	5	4+	5+	1	7+	2	FNP 6+

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
Autoch-Pattern Bolt Pistol ×10	12"	1	4+	4	0	1	Pistol	Chaff
Autoch-Pattern Bolter ×7	24"	2	4+	4	0	1		Light infantry
L7 Missile Launcher - Blast	24"	D6	4+	4	0	1	Blast	Hordes
L7 Missile Launcher - Focused	24"	1	4+	9	-2	D6		Vehicles
Magna-Rail Rifle	18"	1	5+	12	-3	D3+3	Devastating Wounds, Heavy	Vehicles, monsters
Theyn's Pistol	12"	1	4+	8	-2	1	Pistol	Elite infantry
Close Combat Weapon ×9	Melee	1	4+	4	0	1		Chaff
Theyn's Melee Weapon	Melee	2	4+	5	-2	2		Infantry

CMD Luck Has, Need Keeps, Toil Earns: end of your Command, an objective they're on stays yours until the opponent out-controls it at a phase end

SHOOT Pan-spectral Scanning: re-roll hit 1s

ALWAYS FNP 6+, 5+ invulnerable (Weavefield Crest)

> **Don't forget:** Make the objective sticky first, then you can move off it and still earn its YP.

Infantry · Battleline · Grenades · 90 pts each

Hernkyn Yaegirs

90 pts

Forward screen and scouts that dodge charges.

Model	M	T	Sv	Inv	W	Ld	OC	Other
10× Hernkyn Yaegirs	6"	5	5+	—	1	7+	1	

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
APM Launcher	24"	1	4+	6	-2	D6	Anti-Monster 3+, Anti-Vehicle 3+	Vehicles, monsters
Bolt Revolver	12"	1	4+	5	0	1	Pistol	Light infantry
Bolt Shotgun ×7	18"	2	4+	5	0	1	Assault	Light infantry
Magna-Coil Rifle	24"	1	4+	5	-2	2	Ignores Cover, Precision	Characters
Close Combat Weapon ×10	Melee	1	4+	4	0	1		Chaff
Plasma Knife	Melee	2	4+	4	-2	1		Infantry

BEFORE Infiltrators: deploy >8" from the enemy deployment zone and enemy units

REACT Pragmatic Hunters: when an enemy ends a move within 8" in their Movement, make a D6" Normal move (not if engaged)

> **Don't forget:** The move happens after each enemy move. Use it to stay out of charge range or to block a lane.

Infantry · Grenades · Infiltrators

Hekaton Land Fortress

250 pts

Armoured gun platform and transport; OC 5.

Model	M	T	Sv	Inv	W	Ld	OC	Other
Hekaton Land Fortress	10"	12	2+	—	16	7+	5	

Weapon	Rng	A	BS/WS	S	AP	D	Keywords	Good vs
MATR Autocannon	24"	6	4+	7	-1	2	Assault, Sustained Hits 1	Elites, light vehicles
SP Heavy Conversion Beamer	24"	4	4+	10	-2	4	Conversion, Lethal Hits	Vehicles, monsters
Twin Bolt Cannon ×2	36"	3	4+	6	-1	2	Sustained Hits 2, Twin-Linked	Infantry
Armoured Wheels	Melee	6	4+	8	0	1		Chaff

SHOOT MultiCOG Targeting: can ignore any BS/hit modifiers (cancels Damaged and cover; keep your +1s)
SHOOT Panspectral Scanner: re-roll hit 1s
SHOOT Conversion: beamer crits on 4+ vs targets beyond 12" (with Lethal Hits, those wound automatically)
ALWAYS Transport 14: Exoarmour/Steeljacks take 2 slots each
ALWAYS Damaged 1-5 (-1 to hit, ignored by MultiCOG); Deadly Demise D6

> **Don't forget:** Keep beamer targets more than 12" away. Its Deadly Demise D6 can hurt your own units, so keep them back.

Vehicle · Transport · Frame
